PORTABLE
MARKETING SOLUTIONS

The Display Solutions Handbook is a handy brochure with all the information you need when choosing portable display products.

Each item has details to help you decide if it's the right product for the job. There is also an in-depth section on modular display solutions with expert advice on different types of stands, the materials used and how to get the most out of your stand.

Key to the Display Solution Handbook

Economy product		NEW	New product

BANNERS

Impact, Display, Durable

Whatever your requirements, there is a banner to fit.

With the widest range to suit all budgets, banners are still one of the most effective ways to promote your business. Most of our banners come complete with a carry bag for safe transportation.

Choosing the right banner

With so many banners to choose from, how do you decide which is the right product for the job? See below or ask your dealer for more information.

1. Consider where and how often your banner will be used – indoors / outdoors, occasionally / everyday

2. Select the correct type of material – e.g. banner vinyl, polyester or textile fabric

3. How quickly do you need to change and replace graphics? If often consider a cassette banner option, if not then a roller banner is the ideal solution

4. What is your budget? Choose from economy if use is a one-off or short promotion, right up to premium for when a quality product is required for extended use and travel

5. Size matters! Banners come in a wide range of heights and widths. Consider the environment and space available, banners should gain the interest of your customer, but not get in their way

Banner variations explained

ROLLER BANNERS

A roller banner is the most popular, lightweight and easy to use banner system on the market. There is a roller banner for every occasion and any budget to make your message stand out from the crowd.

MODULAR ROLLER BANNERS

Modular roller banners are configurable banners that can be linked to one another to form larger displays, they can also be set at various heights depending on your message or size of area.

CASSETTE BANNERS

If you need to remove and replace your graphic regularly and require a reliable, quality banner, a cassette banner is a suitable cost effective solution to consider. For a more detailed explanation see page 8.

MINI BANNERS

A range of mini banners to sit on your desk or for when space is restricted, ideal for branding or point of sale.

TENSION BANNERS

A popular and cost-effective banner solution allowing for quick and easy change over of graphic.
Perfect for when you need to change your message frequently.

RIGID BANNERS

Designed to support rigid substrates such as MDF, glass, acrylic or foam board up to 20mm. Ideal for when a more permanent display is required, shapes can also be cut out for greater visual impact

Call us on 01480 493666

Cassette
Banners

If you need to remove and replace your graphic regularly and require a reliable, quality banner, a cassette banner is a suitable cost effective solution to consider.

Cassette cartridges

IMPROVED PRODUCT

NEW LOWER PRICE

Fast change cassette, needs no tools

Cassette banners have an advantage as their graphic cartridge is housed independently from the main base unit.

This means you can change your graphic as often as you need simply and easily yourself.

There is no need to return or replace your banner to have new graphics fitted, simply remove and replace the cartridge for an instant graphic change.

Keep a selection of cartridges at hand to change your message as required, which allows for fast moving promotions.

OUTDOOR/INDOOR

Freedom, Impressive, Robust

Our impressive outdoor/indoor collection provides a great range of products.

Perfect for outdoor situations such as sporting events, country shows and trade fairs as well as indoor purposes including exhibitions, retail promotions and showrooms.

Caring for your flag

How to care for your flags

Consider where you position your flag as air pollution will cause the white areas to become grey and UV can, over time, cause deterioration and fading to the fabric

Life expectancy is entirely dependant on the climatic conditions and hours of flying. Realistic maximum lifespan of a flag used regularly is approx. six months. If any edges of the flag become frayed then trim, reinforce and re-hem to extend its life.

Dismantle your flag during adverse weather conditions, including strong winds. Heavy rain combined with high winds can increase the weight of the flag and put extra strain onto the pole.

Flags can be washed in a regular washing machine on a 40° wash with everyday detergents. Always allow your flag to completely dry out before storing.

Ensure that your flag doesn't catch or snag on its pole or any other surrounding objects. Do not place poles too close together.

Base: 852 (h) x 836 (w) x 490 (d) mm
Header: 300 (h) x 780 (w) mm

Specialist printing and finishing skills are required on most outdoor products, especially flags.

We offer a wide range of printing, cutting and finishing techniques to include UV, Dye-sub and latex printing plus digital cutters and expert sewing machinists to give a top class professional finish.

Whether it's one flag or 100 outdoor banners - no job is too small or too big and turn around is very fast with quick and reliable delivery.

If you are able to plan ahead - you can make impressive savings on the cost of your printing, ask your local dealer for details.

HOP-UPS & POP-UPS

Lightweight, Compact, Practical
Pop-up and Hop-up display systems are quick and easy ways to provide creative back drops, exhibition stands and displays.

Both have clever frame systems that set up in minutes with graphics that are either easily attached to a Pop-up frame or left in place on a Hop-up.

Pop-ups
Pop-ups & Hop-ups

Pop-up display systems are one of the quickest and simplest ways of creating effective backdrops or exhibition stands. With a clever frame system that clicks together with ease, your display is ready in minutes. Complete your look with lights and a Pop-up counter or tower.

Modular Display Stands
Pop-ups & Hop-ups

Create exciting and effective modular display stands using Pop-up technology. Quick, easy and very cost-effective.

Pop-up systems are a cost-effective and efficient way to create a range of display stands for exhibitions and presentations.

Create straight or curved panels, add towers, shelving and cupboards, complete with lighting and counters for a polished look at a great price.

With the clever Pop-up frame system using Neo magnetic locking arms, your stand can be assembled in minutes, snap graphics into place very quickly for a great looking stand.

Use optional graphic cases to store and transport your frame and graphics, you can even convert your case into a counter with shelves and graphic wrap to use whilst on the stand.

3D design service

Using the latest CAD software technology, our experienced 3D design team will work with you to design and then render your exhibition display stand so you can view before you buy. Ask your dealer for details.

Create exciting and effective modular display stands using Pop-up technology. Quick, easy and very cost effective.

EXHIBITION DISPLAY SOLUTIONS

Portable, Engage, Reuse

Exhibition display solutions using a range of different materials to create different looks and textures.

Formulate, Vector, Linear and Arena offer standard kits that can be assembled quickly and easily with your own graphics.

Formulate

Formulate is an exhibition stand solution using aluminium structures with textile fabric graphic socks that wrap snugly around each frame. Graphics can be removed and replaced easily, perfect for when your message needs changing often.

NEW

FIVE YEAR

Formulate… where Form meets Function

Formulate is a range of standard structures that are manufactured from strong, yet lightweight, tubular aluminium which is then dressed with a tensioned fabric graphic.

Stretching a tough fabric graphic over the Formulate structure changes it from a simple frame to an elegant, engaging form, suitable for various situations and applications.

The Formulate range consists of fabric displays, available in various widths and configurations, shaped counters, impressive retail and exhibition structures, hanging structures and a multitude of accessories.

Lightweight, impressive display in two easy steps.

Formulate fabric displays are aluminium structures with textile fabric graphic socks that wrap snugly around each frame.

Here's why **Formulate is** proving so popular

o Each structure is manufactured from lightweight but strong 32mm diameter aluminium framework making the kit easily portable.

o Each of the connecting frame sections are labeled with matching symbols, meaning that it is easy to assemble and saves time compared with other types of display equipment.

o The elasticity within the fabric makes the graphics extremely durable and long lasting giving a great return on investment.

o Attaching the graphics is simple! Each graphic effortlessly slides over the framework and zips closed.

o Kits pack away into a small carry bag making them convenient to transport and store.

o Graphics are easy to care for. After use, zip closed, fold up and place into the bag. If the graphics get dirty during use they can be washed.

Vector Lite

Design, customise and build your own unique exhibition display using standard components that support a variety of medias with just one profile.

NEW

FIVE YEAR

Vector Lite is the latest innovation in exhibition stand design and build. Simple in functionality and sleek in design, this range is perfect for creating exciting and easy to build exhibition stands

Ask your dealer about the dedicated Vector Lite brochure

Vector Lite   NEW

- Easy to assemble with minimum tools required
- A range of 40mm thick aluminium panels, straight and curved, to create different display configurations
- Complete your display with seamless graphics single or double sided
- This clever system can accept PVC vinyl, textile fabric or foam board graphics using just one versatile profile system

Vector Lite
Kit 1

Vector Lite
Kit 2

Build Vector Lite

1. Push corner cleats together, tighten with allen keys

2. To make larger frames, push joiners together, lock in place with grub screws

3. Join frames side-by-side; attach joining hook into grooved frame edge, slot frames together, secure using grub screws.

4a. Add feet for stability

4b. Slot together frame posts to create a corner

5. Attach frame to post using joining hooks

6. Stacking two frames; slide in joining brace, tighten grub screw with allen key, align top frame to base frame*

*Stacking option only available for 1000mm frames. Stack no more than two in total

PANEL KITS

Adaptable, Reconfigurable, Practical

Panel kits are a favourite display method, ideal for any training environment.

They are lightweight and portable with the added benefit of your graphics remaining in place. Choose from a varied range of panel kits to suit your requirement.

Baseline Range
Panel Kits

**Baseline offers table top, panel kits and aluminium edged kits all ideal for any training environment.**

Baseline
Panel Kit range

Baseline panel kits are lightweight and easy to transport even with graphics in situ.

There is a choice of Baseline, Baseline Plus with 25mm thick panels and Baseline Aluminium.

All panels are finished in loop nylon fabric and available in a choice of thirty colours. Ideal for any training environment or display solution.

- Very popular hinged folding panel kits
- Quick and easy to assemble
- Choice of panel kits, junior and senior tabletop kits, jumbo panels and wheeled panel screens
Optional lighting available
Baseline Aluminium 7 Panel Folding Kit

Baseline 6 Panel Folding Kit

Powerspot 50** PS050

Baseline 8 Panel Folding Kit

Please note: We guarantee panels for use with hook and loop fasteners sold by us, which are specified as fit for purpose. We cannot guarantee panels against damage when other brands of hook and loop are used as they may have stronger hook adhesion, which carries the risk of damage and de-lamination to the panel fabric.

Baseline Junior and Senior Tabletop Kits

Junior kit - KK102/KK102A*
Senior kit - KK103/KK103A*
*A denotes aluminium trim

Baseline Tabletop Folding kits are lightweight and easy to transport, even with graphics in situ. Panels are finished in nylon fabric and are available in a choice of 30 colours.

- Choice of standard or luxury foam backed loop nylon fabrics
- Choice of black or grey frames
- Dry-wipe white board option available

Senior Kit

Junior Kit

Baseline Plus Panel Screens (Wheeled)

For a choice of fabric colour options see page 119

These panel systems are an ideal divider or display panel solution. With hinges and castors they are easily placed wherever required with a multiple choice of positions.

7 Panel Kit

**See page 116 & 117 for full range of lighting options

PORTABLE COUNTERS

Simple, Stylish, Versatile

Choose from a wide range of portable counters that are available for almost any situation or occasion.

Easy to assemble and extremely versatile with many able to support graphic wraps. Portable counters are the perfect way to welcome your guests.

V Counter
Portable Counters

Portable counters can be used for a variety of applications from welcoming guests to storing items to lecterns for presenting. Whatever your needs there is a counter to suit.

Robust, stylish counter or workstation with integral shelving and lockable storage. V Counter is available in two configurations - standard and deluxe with five finishes, you can also customise with an acrylic front panel using your own design.

Versatile and stylish counter in two configurations

V Counter
PK30

- Two top shapes available, Keystone and Elipse
- Unit available in black, white, birch, walnut or silver finish
- Use optional fascia kit to customise with your own printed design
- No tool assembly and packs flat for easy storage and transportation

Total hardware dimensions (approx.):
Elipse: 1020 (h) x 950 (w) x 520 (d) mm
Keystone: 1020 (h) x 900 (w) x 550 (d) mm

Deluxe option includes integral shelf and lockable door

Optional iPad holder available, see page 108

LCD monitor and iPad not included

Standard option with open back

Physique range

Physique offers the largest range of flat pack counters for portable marketing. Physique is available in two specifications to give the same end look - one with fabric and one with graphic. All standard Physique come with a standard foot; an optional locking castor is available at an extra cost. We are able to manufacture any counter to your own specification.

MDF Freestyle –
Constructed using MDF tambour wraps and finished with a textile fabric covering. These counters have a load bearing weight of up to 75kg.
Physique pole graphic –
Constructed with a unique twist and lock aluminium pole system. Once the poles are in place they

allow the application of your graphic direct to the unit. There are three exceptions to Physique in the counter range:
Lunar Lite which is a low cost lightweight counter option using a plastic tambour wrap – see page 94.
Physique Contour which is a professional hard-wearing PVC tambour based counter – see page 95 - while stocks last.
Physique Tube Lite which is available in six standard shapes with 500/550 micron thickness wrap to give a lightweight support – see page 97.

Optional iPad holders available for most counters. Products come with a bag where marked. We can supply bags for all products as an optional extra.

Physique Freestyle is constructed using MDF tambour wraps, finished in a choice of fabric covering. Load bearing up to 75Kg.

Physique MDF Freestyle

Choose from a choice of smooth and luxury foamed back loop nylon coloured fabric options, see page119 for details.

Physique Pole Graphic

Twist and Lock pole system

Custom capabilities guide

There are many items in the range that can be customised or made-to-order, providing an unrivalled level of flexibility. These include:

Linear, Linear Vector, Vector Lite and Formulate modular aluminium frame systems - you can use 'elements' to configure your own display design or we can work from a custom brief.

Banner stands - Original+ can be manufactured to custom widths.

Pop-ups - can be built to custom configurations based on standard 'quads' as building blocks.

Fabric panels for banners and pop-ups - simply select your fabric and place your order.

Physique portable counters - manufactured to custom designs and sizes with a range of finishes to choose from for the side panels, tops and bases. You can even have custom logos engraved, thermoformed into wooden tops and UV printed.

Carry bags - canvas bags can be manufactured to custom specifications.
Panel kits - standard panels in custom configurations.

Panel & Pole - standard panels in custom configurations and custom sized panels.

Poster frames and rails - manufactured to custom sizes.

Promoter units and lightboxes - manufactured to custom sizes.

Our product range

We are dedicated to delivering the widest choice of products from cost effective to premium quality. We promise to continuously search for new and pioneering ideas bringing innovation and excitement to our complete range of portable display products.

Our products cover a broad range of needs from simple cost effective display solutions to more comprehensive and specialist displays for both one off and semi-permanent use.

Guarantee

| ONE YEAR | FIVE YEAR | LIFE TIME |

All products are covered by a manufacturer's guarantee against component failure and defects. Our premium banner range is covered by a lifetime guarantee, the rest of our range is covered by a five year guarantee with the exception of our illuminated, Basics and Outdoor products which are covered by a one year guarantee.

We are continually improving and modifying our product range and reserve the right to remove products or vary the specifications without prior notice. All dimensions state height first. All dimensions, graphic information and any weights quoted are approximate and should be used as a guide only.

We accept no responsibility for variance. E&OE

Design and Patent

Some of the products in our catalogue carry a worldwide Patent, some carry a Design Patent. All of our unique products are designed in the UK / USA and designs are registered.

Due to variations in graphic substrates, graphic thicknesses stated are provided as a guide only. Always check the suitability of your substrate on the display unit before application.
