Before

After

Stairwell walls

Our Brief.

To bring to life the stairwell area and create interest in the space.
Our solution was to use an extremely durable, scuff proof wallpaper, to cope with the demands of this busy area.

PMT DIGITAL LIMITED

Stairwell walls

Our Brief.

To add energy and lift the space, creating interest to an otherwise plain and functional area.

Restaurant spaces

Our Brief.

Founded on the ethos of 'Dine. Enjoy. Escape', this restaurant asked us to bring the outside in and create a tangible feeling of warmth, calm and escapism. Using one of the external walls as our canvas we removed this as a boundary to the imagination transporting diners to a tranquil place of their own.

PMT DIGITAL LIMITED

Restaurant spaces

Our Brief.

To draw inspiration from the industrial heritage of the area.
Our creative team worked with the existing décor to enhance the rustic feel of the space.

Corporate spaces

Our Brief.

Create a stunning contemporary window feature in this corporate reception area. We brought a sense of movement and fluidity to this space with this design which appears to float on the other side of the glass. The background is frosted whilst still allowing natural light to pour in.

PMT DIGITAL LIMITED

Corporate spaces

Our Brief.

To create a feature in the room themed on a piece of modern art.

This not only complimented the contemporary and minimalist feel of the space but added colour and interest.

Retail spaces

Our Brief.

To create impactful graphics whilst retaining the simplicity of the space.

We chose to enhance and work with the structures within the area. Recessing a fabric lightbox system along the back wall; and cladding the columns using a magnetic graphic panel system.

Both these solutions allow the graphics to be changed in store quickly and easily.

Retail spaces

Our Brief.

Design a range of 'city woman' themed concepts which showcase the retailers 'desk to dining' collection for that season. This installation used a magnetic graphics panel system to create a seamless backdrop. High quality print on ferrous paper offers a cost effective solution with ease of distribution direct to store in postal tubes.
